The Most Precise Rotary Edge Sanding in the World!

Precise as technology can get!

TURBOSAND products are about QUALITY EDGE SANDING of hardwoods, softwoods, medium density fiberboard (MDF), particle board and plastics. TURBOSAND is currently used on CNC equipment including numerically controlled routers, single and double end tenoners, shaper/sanders and dual sanding attachments. TURBOSAND can be stacked or run on a variety of machines.

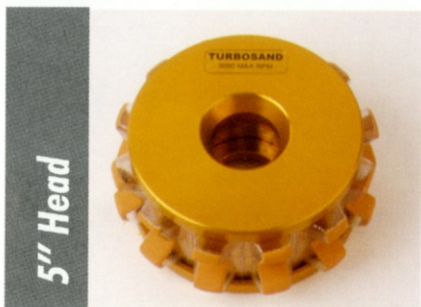

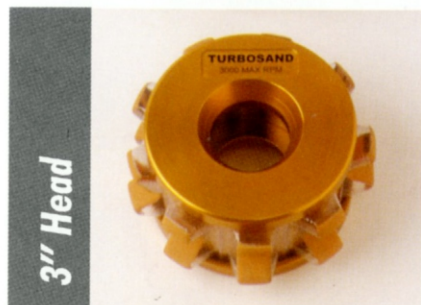

Matching the shaper to the sander gives excellent abrasive life and the highest quality finish. The grits available range from 80-220, for fine kitchen cabinets, fine furniture, and specialty wood products. With proper adjustment, TURBOSAND can sand 4,000 to 8,000 lineal feet on hardwoods and 15,000 to 35,000 lineal feet on MDF. Profile complexity and sanding grits can determine abrasive longevity. Our customers always seem to do more than we expect.

BB Head with Alternating Pockets

Precision means... Better Quality Sanded Parts and Longer Lasting Abrasive Life.

Our patented one piece TURBOSAND insert is the most Precise Rotary Sanding System made.

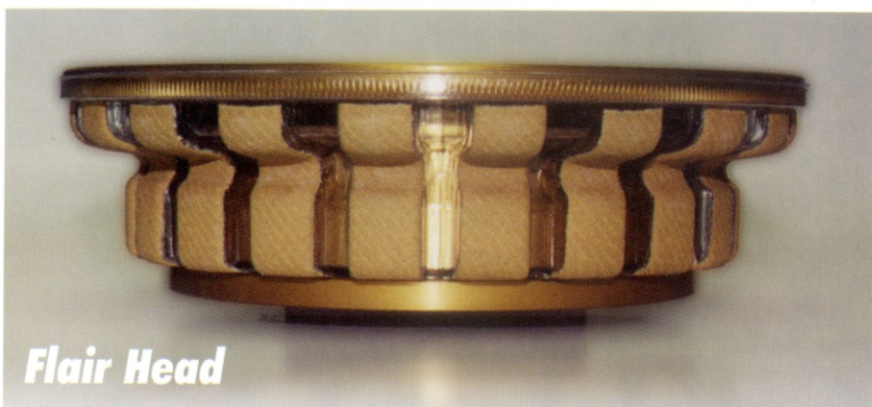

The Challengers Award

Double RP Head in Tool Changer

Flair Head

The TURBOSAND RP Head was built specifically to sand raised panels. Using die-formed, abrasive Turbocaps, the TURBOSAND RP head minimizes heat and dust build-up. It runs cooler so it can last longer. This system will produce a beautifully sanded surface which will allow your parts to go right into the finishing stages.

RP Head

TURBOSAND USED ON...

EDGE SHAPER/SANDERS •

CNC NUMERICAL CONTROLLED ROUTERS •

SINGLE-END TENONERS •

DOUBLE-END TENONERS •

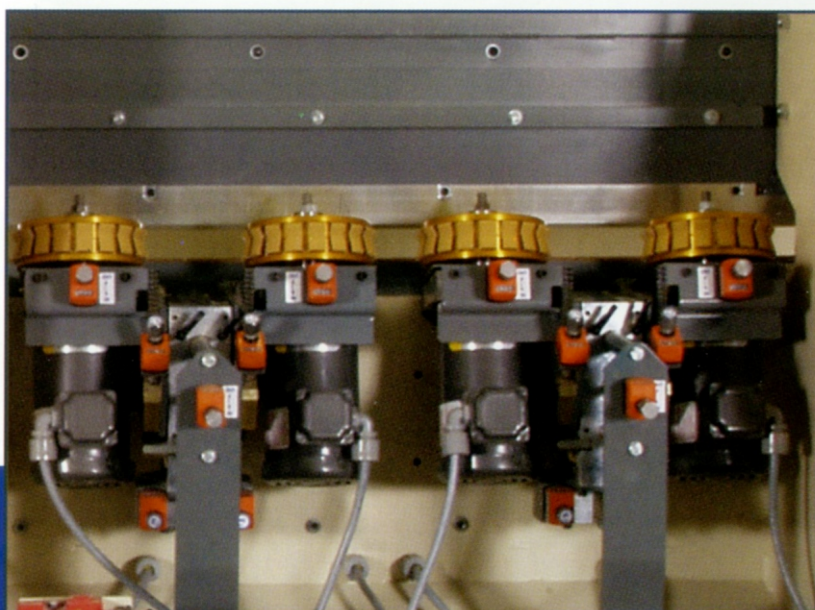

DUAL SANDING ATTACHMENTS •

COOL, CLEAN & QUICK...

The TURBOSAND EDGE PROFILE SANDING SYSTEM has become the leader in the woodworking industry.

The process is a sanding system that performs like a cutter instead of an abrasive. TURBOSAND produces a clean, perfectly cut edge and eliminates the problems of dust build-up and burning. TURBOSAND is available in a variety of diameters for various applications.

It's the one system that's *COOL, CLEAN & QUICK*.

- **Over 1500 Standard Profiles**
 - **Custom Profiles Available**
- .040 Corner Technology**
